Melvin Traylor Asks Curb on Mounting Cost of Government

Chicago Banker Shows Need of Caution in Spending Tax-payers' Money

Would Reform Tax Methods

Speaking before the International Chamber of Commerce at Washington, Melvin A. Traylor, President of the First National Bank of Chicago, said in part:

Another field in which responsible leadership must do some hard, sound thinking is that of public expenditures.

In this country, government is expected to do more for the people and yet we know that in no other field does leadership exert so great an influence upon the thought of the people as in the political arena.

In the fifteen-year period, from 1913 to 1928, our national income was estimated to have increased from about \$14 billion dollars to \$11 billion dollars annually, or 155 per cent; in the same period the expenditures of all governmental divisions in the United States have increased from a little less than \$1 billion dollars to more than \$12 billion dollars, or approximately 300 per cent.

It is perfectly true of course that the expenditures of all governmental divisions in the United States have increased from a little less than \$1 billion dollars to more than \$12 billion dollars, or approximately 300 per cent.

Figures are not available for the years following 1928, except for the Federal Government, whose expenditures increased 107 per cent for the fiscal year ending in 1929, and 6 per cent in 1930. It may be assumed that the increases have occurred in other political subdivisions of the country.

Draft Of New County Budget Announced

Total Of Over \$96,000 In Tentative County Budget Published

A tentative county budget for 1932 was announced yesterday by Appomattox Supervisor, and is published in this issue. The total is \$96,844.98, a figure adjusted to the road and salary enactments of the past General Assembly.

The budget will be up for adoption at a meeting of the Supervisors at 10 a. m. April 7. The biggest change in the budget is the road funds, items for district roads being eliminated following action by the state in taking over all county roads, as of July 1, 1932.

Ransom, March 16.—That Buckingham County can no longer be called backward in agricultural progress is demonstrated by the fact that the Dark Tobacco Growers' Association has already gone over "the top" in the county with the quota required, and by the energetic way in which its farmers are taking hold of that soil panacea, Lespedeza clover. There are now farmers in the county who are not sowing from 10 to 100 or more pounds of this legume, whose most recent appeal is that it does not require any thrifty grower.
